PROFESSIONAL SUMMARY

Technical Superintendent with over 25 years of offshore experience, including recent service as Technical Superintendent / TSI at Rawabi Vallianz Offshore Services (Oct 2024 – May 2026) and extensive service as Chief Engineer on AHTS DP1/DP2 vessels. Strong expertise in fleet technical management, maintenance planning, PMS oversight, dry-dock coordination, defect analysis, and Class / Flag State compliance. Proven ability to manage vessel technical condition, costs, and operational readiness while coordinating between vessels, shipyards, OEMs, Class societies, and management.

CORE TECHNICAL RESPONSIBILITIES

Fleet Technical Supervision • PMS Oversight • Maintenance Planning • Defect Management • Dry-Dock Coordination • Class / Flag Liaison • Budget & Spares Control • Vendor & OEM Coordination • Technical Audits • ISM / ISPS / SOLAS Support

PROFESSIONAL EXPERIENCE**Rawabi Vallianz Offshore Services**

Technical Superintendent / TSI

Oct 2024 – May 2026 | UAE – Dubai, Sharjah & Ajman / KSA – Tanajib

Shore-based technical role providing continuous fleet technical support for offshore vessels operating in UAE ports, including mobilization activities, dry-dock periods, and repair phases.

Responsibilities include technical inspections and vessel condition assessments, PMS monitoring, coordination of repairs and service providers, mobilization support, liaison with Class, Flag, shipyards and port authorities, defect management, corrective actions, and technical reporting.

Rawabi Vallianz Offshore Services

Chief Engineer

Feb 2021 – Apr 2024 | AHTS (DP2)

Responsible for engine room operations, maintenance planning, PMS execution, audits, repair coordination, and technical liaison with shore management during offshore operations.

POSH Fleet Services

Chief Engineer

Aug 2018 – Apr 2019 | AHTS

Managed technical condition and maintenance planning of offshore vessels. Supported shore teams with defect resolution, repair coordination, and operational readiness.

SEACOR Marine Offshore (Dubai, L.L.C.)

Chief Engineer

Dec 2012 – Jul 2017 | AHTS (DP1)

Managed PMS execution, Class inspections, audits, and repairs across multiple offshore vessels (Seabulk Luanda), maintaining technical readiness in close coordination with shore technical teams.

Second Engineer

Oct 1999 – Dec 2012 | AHTS (DP1 / DP2)

Built strong technical foundation in machinery maintenance, defect rectification, and offshore operational support on Seabulk South Atlantic, Seabulk Luanda, and Seacor Enterprise.

Walvis Nigeria Ltd

Second Engineer / Chief Engineer

Oct 1999 – Jul 2006

Early offshore career on AHTS and tug vessels, gaining broad technical exposure to maintenance, repairs, and vessel operations in demanding environments.
